

Welcome to Mims Classic Beauty College. Upon becoming a student at Mims, you will join a long list of successful graduates dating back to 1932. We are dedicated to consistency and quality; in our staff, the educational presentation, and your performance. This consistency and quality is attained by offering limited enrollment (a maximum of 15 per class), state of the art instruction, and integrating new trends and industry developments with the basic requirements of your program.

Your training will come through observation, practice, and personal instruction under the close supervision of your instructors. You will receive personal assistance in every step of your training. During your training, your progress will be evaluated at regular intervals to ensure you are getting the most from your training. These evaluations will be reviewed with your instructors, and when necessary, additional instruction will be provided.

Here at Mims we take great pride in the thousands of successful beauty professionals we have trained since 1932. Please feel free to visit the school or to audit our classes any Tuesday thru Friday. Bring us your energy, desire, and commitment and allow us help you become a leader in this great industry.
